**Motivated and adaptable** Engineering Graduate with strong **proficiency** in software development frameworks, problem-solving, and analytical thinking. **Hands-on experience in Full-stack development, incident handling, and technical debugging** with exposure to both **Windows and Linux environments**. Adapt to **collaborating within teams, communicating technical** concepts clearly, and maintaining **high standards of code quality in Microservices**.

## PROFESSIONAL EXPERIENCE

### Full Stack Developer Intern,

Factree.ai Pvt Ltd,

Oct 2024 – July 2025

Bengaluru, Karnataka, IND

- Contributed across the **SDLC** requirements gathering, **automation testing, and deployment**.
- Applied problem-solving and **debugging skills to resolve technical issues**, improving system **reliability, testing** and a scalable application.
- Ensured code in **RESTful APIs** data worked properly in the application build and debugging.
- Adapted **quickly to new tools and frameworks, contributing to agile and fast-paced project environments**.

## INTERNSHIPS

### JAVA FULL STACK DEVELOPEMENT

JSpider, Rajajinagar

August 2025 -Present

- Gained strong knowledge of **Core Java fundamentals**, including collections, exception handling, and multithreading.
- Applied Core Java and **OOPs principles in backend development** using frameworks like Spring and Spring Boot

### AWS Cloud Infrastructure for Scalable Web Application(iSOFT-Training)

06/2024-08/2024

- Designed and implemented a scalable web application **on AWS, leveraging EC2 for computing and S3 for storage**, enhancing performance and scalability.
- Deployed a secure **VPC with private subnets and security groups, implementing Auto Scaling** to achieve 96.9% uptime and increase system reliability by 40%.

## EDUCATION

G M Institute of Technology,(VTU), Davangere

**Bachelor of Engineering**, Electronics and Communication(**ECE**)

**Relevant Coursework: OPPS(Java), Cloud Computing (SaaS), and Computer**

**2021-2024**

**CCGP: 7.88**

## SKILLS

- **Programming Language: Python, Java, SQL, JavaScript, HTML/CSS**
- **Databases & Data Handling:** MongoDB, MySQL, JSON
- **Framework: Flask API, Fast API, and React JS**
- **Technologies:** GitHub and Microservices Architecture (SDLC), such as **LLD**.
- **Tools:** VS Code, **Git, Postman, JIRA** and Docker.
