🌐 [LinkedIn](#) | ✉️ vaishnavidevip17@gmail.com | 🐙 [GitHub](#)

Motivated and adaptable Engineering Graduate with strong **proficiency** in software development frameworks, problem-solving, and analytical thinking. **Hands-on experience in Full-stack development, incident handling, and technical debugging** with exposure to both **Windows and Linux environments**. Adapt at **collaborating within teams, communicating technical** concepts clearly, and maintaining **high standards of code quality in microservices**.

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern,

Factree.ai Pvt Ltd,

Oct 2024 – June 2025

Bengaluru, Karnataka, IND

- Contributed across the **SDLC** requirements gathering, **automation testing, and deployment**.
- Applied problem-solving and **debugging skills to resolve technical issues**, improving system **reliability, testing** and a scalable application.
- Ensured code in **RESTful APIs** data worked properly in the application build and debugging.
- Adapted **quickly to new tools and frameworks, contributing to agile and fast-paced project environments**.

PROJECTS

Stock Market Prediction Using AI

05/2023 –03/2024

"Unleashing the Power of Artificial Intelligence: A Journey into Stock Market Prediction".

- Organised a model to predict stock market prices combined using Long Short-Term Memory (LSTM) CNN, providing insights into potential profits and losses.

AWS Cloud Infrastructure for Scalable Web Application(iSOFT-Training)

06/2024-08/2024

- Designed and implemented a scalable web application **on AWS, leveraging EC2 for computing and S3 for storage**, enhancing performance and scalability.
- Deployed a secure **VPC with private subnets and security groups, implementing Auto Scaling** to achieve 96.9% uptime and increase system reliability by 40%.

EDUCATION

G M Institute of Technology,(VTU), Davangere

2021-2024

Bachelor of Engineering, Electronics and Communication(**ECE**)

CCGP: 7.88

Relevant Coursework: Software Engineering, Data Structure (DSA), Operating Systems (Linux), **Cloud Computing (SaaS)**, and Computer Networking (HTTP, IP, and TCP)

SKILLS

- **Programming Language:** Python, Java, SQL, JavaScript, HTML/CSS
- **Databases & Data Handling:** MongoDB, MySQL, JSON
- **Framework:** Flask API, Fast API, and **React JS**
- **Technologies:** GitHub and Microservices Architecture (SDLC), such as **LLD**.
- **Tools:** VS Code, **Git**, **Postman**, **JIRA** and Docker
- **Soft Skills:** Enthusiastic, Problem-Solver, Judgment & Decision Making,
